LinkedIn: http://linkedin.com/in/shrivardhan-jadhav-shreem675

CORE COMPETENCIES

- Analytical Skills
- Problem-Solving
- Attention to Details
- Collaborative Mindset
- Initiative & Self-Motivated
- Machine Learning
- Web Design and Development
- CNC Programming
- Graphic Design
- Reporting/Documentation
- Project Research
- Project Management
- Strategic Planning & Leadership
- Communication Skills
- Relationship Management
- Time Management
- The Ability to Prioritize and Juggle Multiple Responsibilities
- MS-Office (Word, Excel and PowerPoint) and Internet Applications

IT SKILLS

Auto Cad	Microsoft Power BI
Python 3	Operations Analysis
Photoshop CS6	Operation Monitor
Illustrator CS6	Service Orientation
CNC Programming	Fault Detection
SQL	

ACADEMIC CREDENTIALS

2021: Bachelor of Engineering (Mechanical Engineering); Savitribai Phule Pune University, Pune | 8.49 CGPA

2017: Diploma of Education (Mechanical Engineering); Bharati Vidyapeeth College of Engineering, Navi Mumbai | 64.12%

2012: Secondary School Certificate; Maharashtra Board, Maharashtra | 72.4%

PERSONAL DOSSIER

Date of Birth: 20th February, 1997
Languages Known: English, Hindi, Marathi, Japanese, and Korean
Address: Pinnacle CHS, Flat No.203, Plot No.28, Kamothe, Sector 35, Navi Mumbai, Maharashtra – 410209 (India)

SHRIVARDHAN CHANDRAKANT JADHAV

VALUE ENGINEER INTERN

ABOUT ME

Offering **04+ months** of experience. Responsible for Researching and developing statistical learning models for data analysis to devise innovative and forward-thinking solutions for our clients' needs. **Seeking entry level of position across Data Science industry in esteemed, reputed, and established organization.**

EXECUTIVE SUMMARY

- Data mining or extracting usable data from valuable data sources.
- Using machine learning tools to select features, create and optimize classifiers.
- Carrying out preprocessing of structured and unstructured data.
- Enhancing data collection procedures to include all relevant information for developing analytic systems.
- Processing, cleansing, and validating the integrity of data to be used for analysis.
- Analyzing large amounts of information to find patterns and solutions.
- Developing prediction systems and machine learning algorithms.
- Presenting results in a clear manner.
- Propose solutions and strategies to tackle business challenges.
- Collaborate with Business and IT teams.

CERTIFICATIONS

- **Jan'2024: AWS Cloud Solutions Architect Certificate;** Coursera
- **Dec'2023: AWS Fundamentals;** Coursera
- **Sep'2023: machine learning A-Z™:AI, Python & R+ ChatGPT Bonus (2023);** Udemy
- **May'2023: 100 Days of Code: The Complete Python Pro Bootcamp for 2023;** Udemy
- **Mar'2023:The Complete SQL Bootcamp: go from zero to hero;** Udemy
- **Mar'2023: The Git & Github Bootcamp;** Udemy
- **Feb'2023: R Programming A-Z™: R For Data Science With Real Exercises!;** Udemy
- **Jan'2023: R Programming - R Language for Absolute Beginners;** Udemy
- **Jan'2023: The Ultimate MySQL Bootcamp: go from SQL Beginner to Expert;** Udemy
- **Dec'2022: Microsoft Power BI - The Practical Guide [2023 Edition];** Udemy
- **Oct'2022: The Complete 2022 Web Development Bootcamp;** Udemy
- **Jan'2022: Crash course on Python;** Google
- **Jan'2022: Electric Vehicles and Mobility**; Ecole des Ponts ParisTech (Coursera)
- **Dec'2021: Capstone: Retrieving, Processing, and Visualizing Data with Python;** University of Michigan
- **Dec'2021: Python Data structure;** University of Michigan
- **Dec'2021: Programming for Everybody (Getting Started with Python);** University of Michigan
- **Dec'2021: Using Python to Access Web Data;** University of Michigan
- **Dec'2021: Electric vehicles basics;** Udemy

CAREER GLIMPSES

Maurya Group; Kolhapur, Maharashtra **Jun'2022 – Sep'2022**
Internship - Value Engineer

- **Product Analysis:** Conduct detailed analysis of product designs, specifications, and manufacturing processes to identify potential areas for cost optimization and quality improvement.
- **Cost-Benefit Analysis:** Perform cost-benefit assessments on proposed design changes, alternative materials, and manufacturing processes to evaluate their impact on overall product value.
- **Value Identification:** Proactively identify opportunities to enhance product value by suggesting design modifications, component substitutions, or alternative suppliers, while maintaining or improving product performance.
- **Collaborative Problem-Solving:** Collaborate with cross-functional teams to understand their specific needs, challenges, and requirements, and contribute valuable insights and recommendations to enhance product performance and cost-efficiency.
- **Continuous Improvement:** Continuously monitor and evaluate the performance of value engineering initiatives, identify areas for further improvement, and propose and implement iterative enhancements.
- **Documentation:** Maintain accurate and organized records of value engineering activities, including analysis reports, cost models, and recommended changes.
- **Supplier Evaluation:** Participate in supplier evaluations to identify potential partners that align with cost and quality requirements.
- **Risk Assessment:** Conduct risk assessments to ensure that value engineering initiatives maintain product reliability and safety standards.
